APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2 inch opening and an air line for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 5.4 cubic feet per second, but not to exceed a yearly duty of 400 acre-feet per acre of land irrigated from any and/or all sources.

Actual construction work shall begin on or before November 26, 1967

Proof of commencement of work shall be filed before December 26, 1967

Work must be prosecuted with reasonable diligence and be completed on or before November 26, 1968

Proof of completion of work shall be filed before December 26, 1968

Application of water to beneficial use shall be made on or before November 26, 1971

Proof of the application of water to beneficial use shall be filed on or before December 26, 1971

Map in support of proof of beneficial use shall be filed on or before December 26, 1971

Commencement of work filed Dec. 11, 1967

Completion of work filed OCT 17, 1969

Proof of beneficial use filed JUL 18, 1972
